👉 "Today's Youth - Tomorrow's Future" was the title of my lecture at Rizvi College, yesterday. It was an amazing audience of 100 students keenly listening. I engaged them by posing several thought provoking questions. This was aimed to dispel mental inertia and ignite a desire to recognize their own potential as changemakers.

I found that the predominant concern among these young women and men were financial uncertainties and anxieties associated with future employment.

I encountered some remarkably talented individuals there. A young woman pursuing BA while concurrently working as a car mechanic to support her family and her own education. I met a young boy who instead of indulging in frivolous spending, saved money to invest in equities amassing a portfolio worth 1.4 Lakhs in two years.

India with 50% of its population below the age of 25 is blessed with a significant demographic dividend. Can we afford to underutilize this valuable resource?

Only few encouraging words, a bit of motivation, sharing of some personal experiences can guide these youngsters on their journey towards realizing aspirations.

Dr. Mariyah Gour, head of Sociology Dept and Dr. Ashfaq Ahmed Khan also spoke. I must thank them for their kind words.

Wish you a happy Republic Day !

Regards

Ghulam Arif
